

Engineered Definition of the second s

The Future is Now

Leave conventional abrasives in the past and do more than you thought possible with Cubitron[™] II Fibre Discs.

- Disc 987C: Your complete stainless steel solution
- Disc 982C: Your complete carbon steel solution

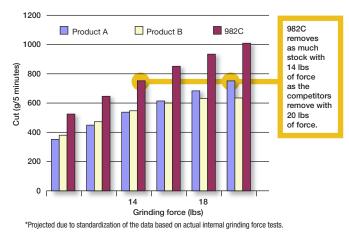

Cubitron[®] II Fibre Discs are made with revolutionary 3M precision-shaped ceramic grain technology, engineered with ultra-sharp, fast-cutting points that wear evenly, run cool and optimize mineral breakdown to maximize disc life.

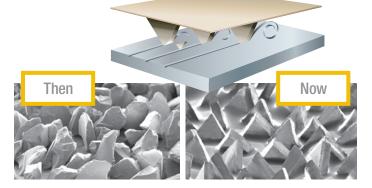

Get More

- More productivity
- More throughput
- More disc life
- More comfort
- More grinding speed

For Less

Projected Grinding Force*

Triangular-shaped grain (right image) is electrostatically oriented to form sharp peaks, each acting like individual cutting tools that slice through metal, wear evenly and provide super-long life and consistency at any grinding pressure.

Unique + Grades for revolutionary products

Multiple grading systems have been created as mineral technology evolves, and Cubitron[™] II abrasives are no exception.

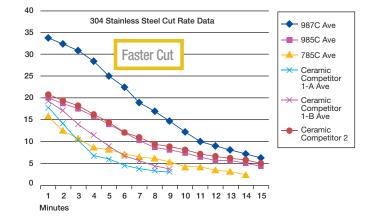

Engineered triangular shapes can't be boxed into the screens used for grading today. Precision-shaped grain is bigger, better, faster and longer lasting than ANSI-graded abrasives thanks to the clean cut provided by the sharp minerals that cut through metal.

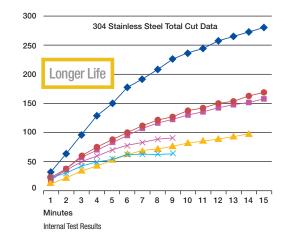

You can count on 3M to meet or beat your current grinding process time.

Target applications

- Weld removal
- Mill scale removal
- · Removing pits and surface imperfections
- Beveling
- Edge chamfering

Cubitron[™] II Fibre Disc 987C: The coolest way to increase productivity

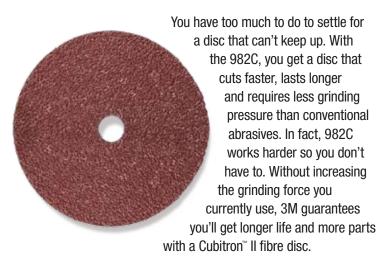

Try 987C for yourself and we'll guarantee you'll see improvement over your existing fibre disc.

987C Customer Test Results

Application	Material	Previous Disc Type	Grade Replaced	Results
Plate grinding	High Nickel Alloy	Ceramic	24	2.5 times life
Plate grinding	Stainless Steel	Ceramic	24	2 times life
Removing Mill Scale	Carbon Steel	Ceramic	36	2-4 times life
Gate removal	718 Inconel	Ceramic blend	24	2-3 times life
Weld removal	Stainless Steel	Aluminum oxide	36	5 times life

Actual results will vary based on end user manufacturing processes.

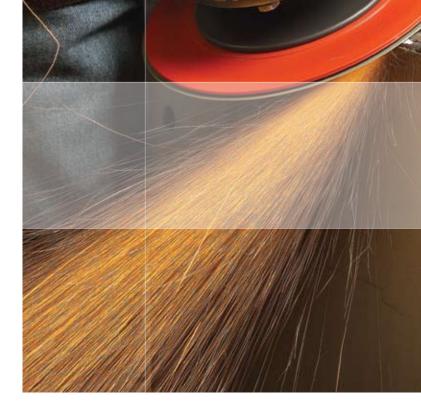

Cubitron[™] II Fibre Disc 982C: Dare to wear it out

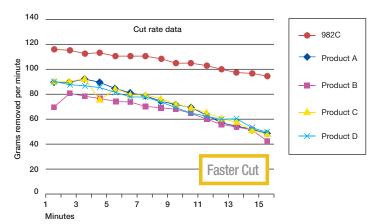

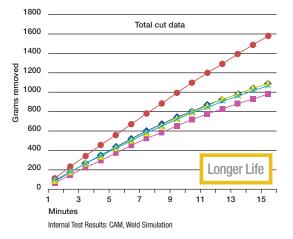

982C Customer test results

Application	Material	Previous Disc Type	982C Results	Operator Comments
Weld (edge & flat)	carbon steel	ceramic, grade 36	2 - 3 times more life experienced by ALL operators	"Much better cut"
Flame cut	carbon steel	ceramic, grade 24	2 times life	"A lot better; cuts faster longer"
Weld prep (flat)	carbon steel	ceramic, grade 36	2 times life	"Don't have to push as hard; tougher material"
Weld removal	carbon steel	ceramic, grade 36	4 hot welds/disc	"Cuts into a hot weld where other discs won't"
Edge work	carbon steel	ceramic, grade 36	2 - 3 times life	"Got life from disc without having to push hard at the end"

Actual results will vary based on end user manufacturing processes.

Everything you need for your toughest grinding applications on carbon or stainless steel in grades 36+, 60+ and 80+. Join the Cubitron^{\circ} II abrasive revolution and take your productivity to the next level.

Important Notice to Purchaser

Safety Information: Always read and follow all safety information included with the product. Do not exceed maximum operating RPM's. Use guards provided with machine. Follow safety operation procedures posted in work areas.

Product Use: All statements, technical information and recommendations contained in this document are based upon tests or experience that 3M believes are reliable. However, many factors beyond 3M's control can affect the use and performance of a 3M product in a particular application, including the conditions under which the 3M product is used and the time and environmental conditions in which the product is expected to perform. Since these factors are uniquely within the user's knowledge and control, it is essential that the user evaluate the 3M product to determine whether it is fit for a particular purpose and suitable for the user's method of application.

Limitation of Liability: Except where prohibited by law, 3M and seller will not be liable for any loss or damage arising from the 3M product, whether direct, indirect, special, incidental or consequential, regardless of the legal theory asserted, including warranty, contract, negligence or strict liability.
